

To whom it may concern,

I have known Dr. Michael Cerami for over 25 years and highly recommend him to your team because of his experience and advanced training for treating sports injuries that I have used on over 400 NFL players over the last 8 years.

Allow me to introduce myself. My name is Dr. Michael Hatrak; I am currently in practice in Atlanta Georgia.

I have been in practice for over 35 years and have helped develop a unique system of correcting all types of sports injuries. As part of our evaluation and treatment protocol we also have found this system to prevent many non-contact injuries as well as enhance sports performance. This system has proven successful for elite high school, college and professional athletes including over 400 NFL athletes helping them return to play on average of 60% faster.

Dr. Michael Cerami came to work with me as a young doctor some 25 years ago in Cherry Hill, New Jersey.

His dedication, deep desire and true concern for our patients quickly earned him the top position in our clinic. His unique skill set and commitment to excellence helped our practice become the largest practice in the Delaware valley.

His life path took him to Utah while mine took me to Georgia. I have had many doctors work for me over the past 35 years but few have had the spark, drive and talent that I saw in Dr Cerami.

Starting January of 2011, we will get our chance to expose this new system of prehab and as we will evaluating over 80 college football players preparing for the NFL Combine.

Dr. Cerami is a true asset to the World of Sports Medicine and I am proud to once again have the opportunity to work with him on this new system of treatment and injury prevention.

Respectfully,

Dr. Michael Hatrak 12/20/2010
